

Press release

Demag withdraws from LogiMAT trade fair

Wetter/Germany, 04 March 2020.

Due to the increasing spread of the coronavirus, Demag Cranes & Components has decided to withdraw from this year's LogiMAT intralogistics trade fair in Stuttgart from 10 to 12 March.

"Safety is a cornerstone of the Demag brand", explains Demag Managing Director Carolin Paulus. "Due to the increasing spread of the coronavirus (SARS-CoV-2), we are unable to accept the responsibility for our visitors and employees. For this reason, we have taken the difficult decision to withdraw from this year's LogiMAT, which is our most important trade fair for intralogistics."

The innovative products that Demag wanted to show at LogiMAT will now be presented to customers and interested parties via the website and direct by the company's experienced sales teams.
