

GENERAL TERMS AND CONDITIONS OF SALE

1. SCOPE OF THESE TERMS

These Terms and Conditions of Sale ("**Terms**") shall apply to any offer to sell or sale agreement ("**Agreement**") between Demag & Cranes Components S.r.l. as seller ("**Seller**") and the buyer ("**Buyer**") unless the parties agree otherwise in writing. Modifications of or amendments to these Terms must be agreed in writing. The parties object to any other or different terms and conditions than these even if they or one of them have not made an express objection. In the event of any inconsistency between the Agreement and these Terms, the Agreement shall govern. It is understood that - as far as the contractual relationship between the parties is concerned - the Buyer's general terms and conditions of purchase (if any) shall not apply, meaning consequently that they will be in any case unenforceable against the Seller and the Buyer shall therefore be prevented from availing itself of any right, claim or cause of action based on said general terms and conditions.

2. GOODS TO BE SUPPLIED

2.1 The delivery of the equipment ("**Equipment**") includes all components, materials and services expressly specified in the Agreement.
2.2 The delivery includes Seller's standard technical documents, such as any spare part lists, operating manuals, instructions for the installations (to the extent not included in the scope of supply) and main dimension drawings. Seller shall not be required to provide manufacturing drawings relevant to the Equipment or spare parts.
To the extent expressly provided for in the Agreement, the design, work at site, installation, supervision of installation, training, assistance in relation to the starting of operations and any components other than crane components shall be included in the scope.

3. DOCUMENTATION INTELLECTUAL PROPERTY RIGHTS

3.1 The Seller shall have and retain all rights, title and interest to any and all copyrights, design rights, patent rights, database rights, know-how, trade secrets and other intellectual property rights relating to the Equipment. Any such intellectual property rights shall not, without the consent of the Seller, be used for any other purpose than for the sales, installing and servicing of the Equipment. They may not otherwise be used or copied, reproduced, transmitted or communicated to a third party. The Buyer may, however, transmit the documents or software to a third party that the Buyer sells the Equipment to.
3.2 The right to use the Supplier's trademarks, domain names and trade names is subject to strict compliance with the Trademark Guidelines, it being understood that the Supplier may revoke this right at any time.
3.3 The Buyer must not use the Seller's trademarks in association with any other trademark so as to create a composite mark of any kind. The Buyer agrees neither to register, nor to have registered, any trademarks, domain names, company names, trade names or symbols used by the Seller or which are confusingly similar to them.
3.4 The Buyer shall notify the Seller of any infringement of the Seller's trademarks, domain names, trade names or symbols, or other industrial property rights, that come to the Buyer's attention. The Buyer shall cooperate with Seller to the extent requested in any action against third parties involving imitation of the Equipment.

4. PACKING AND MARKING

The Equipment shall be packed in accordance with Seller's standard packing procedures as required for transportation under normal transport conditions. The Equipment shall be clearly marked and carry the necessary information concerning Buyer's identification and place of destination.

5. PRICE

5.1 In addition to the price set forth in the Agreement, the Buyer shall be responsible for additional charges as set forth in these Terms.
5.2 If any part of the delivery of the Equipment is delayed due to reasons caused by the Buyer or any third party under the control of the Buyer, the Buyer shall compensate any additional expenses incurred by the Seller due to the late delivery.
5.3 Prices do not include any stamp duty, turnover or value-added tax, bank charges or any other similar taxes, duties or charges payable in the country into which the Equipment is to be imported and where the installation is to be carried out. In the event the Seller is required to pay any such tax or charge, the tax or charge will be added to the invoice as a separate charge and the Buyer shall reimburse the Seller for the payment. If the Seller so demands, the Buyer shall furnish the Seller with documentation on its domicile, residence and other necessary certificates, documentation and/or information required by taxing authority for tax purposes.

6. TERMS OF PAYMENT

6.1 The payments shall be made in accordance with the payment schedule specified in the Agreement.
6.2 Whenever any part of the payment is to be made by means of a letter of credit ("**Letter of Credit**"), Section 23 shall apply.
6.3 If the Buyer delays making any payment or in the establishment of the Letter of Credit or if it becomes evident that the Buyer will not fulfil its contractual obligations, the Seller may subject the fulfilment of its obligation to the execution of any such a payment or opening of the Letter of Credit.
6.4 The Seller shall be entitled to the payment by the Buyer of any interests accrued on delayed payments. Interests shall accrue at the highest rate set forth under applicable law as in force from time to time. Interests shall accrue from the due date until the actual date of payment. Interests shall be paid by the Buyer within thirty (30) days of the date of the relevant invoice.
6.5 Should the Buyer fail to pay any due amount within two (2) months from the expiry of the relevant date of payment, Seller shall be entitled to terminate the Agreement pursuant to and for the purposes of Article 1456 of the Italian Civil Code by notice in writing to the Buyer and to claim compensation for any suffered damages.

7. MANUFACTURING AND DESIGN SPECIFICATIONS

The Equipment supplied and any relevant services shall comply with all standard technical specifications generally applied in the Seller's jurisdiction. Should the Equipment be operated elsewhere than in the Seller's jurisdiction, the parties agree that in any event the provisions of the Agreement shall apply. Unless expressly otherwise provided in the Agreement, any laws and regulations in force in the jurisdiction of operation of the Equipment shall not apply *vis-à-vis* the Seller. The Buyer shall inform the Seller of any applicable safety regulations applicable in the jurisdiction of operation. Any costs in excess of the costs of compliance with European standards resulting from mandatory local laws and regulations shall be added to the price and paid by the Buyer.

8. INSPECTIONS DURING MANUFACTURING

The Buyer has the right at its own expense, subject to agreement with the Seller as to the time and place, to inspect the progress of manufacture and the quality of the Equipment. Any inspections of the Equipment shall be carried out at Seller's premises or at any manufacturing site. Inspection carried out by the Buyer is not a precondition to the delivery of the Equipment.

9. TERMS OF DELIVERY AND TRANSFER OF THE RISK

9.1 Any agreed delivery term shall be construed in accordance with INCOTERMS 2020. If no delivery term is specifically agreed, the delivery term shall be Free Carrier Alongside (FCA). After two weeks from the date on which the availability of the Equipment for collection will be confirmed, the Seller shall be entitled to ship the Equipment to the Buyer and charge to the latter the relevant shipping costs.

9.2 The risk of loss or damage to the Equipment shall pass from the Seller to the Buyer in accordance with the agreed delivery term. If no delivery term is set forth in the Agreement, the risk of loss or damage shall pass to the Buyer when the Equipment is delivered to the shipping company designated by the Buyer at the Seller's manufacturing plant (FCA).

10. DELIVERY TIME

10.1 The delivery time shall run from the latest of:

- (a) the date of execution of the Agreement by the Seller;
- (b) the date of receipt by the Seller of the agreed down payment as set forth in the Agreement; or
- (c) the date of receipt by the Seller of all agreed information and approval by the Buyer of the general drawings.

10.2 The Seller shall be entitled to a reasonable extension of the term of delivery (which shall not be shorter than the length of the delay) if the delivery is delayed for any reason ascribable to the Buyer or any third party under the control of the Buyer, such as modifications requested by the Buyer, delay in the approval of the relevant drawings, delay in the preparation work at the installation site and delayed payments, or it becomes evident that the Buyer will not comply with its contractual obligations.

11. TRANSFER OF TITLE AND OWNERSHIP

11.1 Without prejudice to the provisions of Section 9.1, the Equipment shall remain the Seller's property until the relevant purchase price will have been paid in full. In the event the applicable laws do not permit the Seller to retain title, the Seller shall be entitled to a security interest or charge in the asset. The Buyer shall give the Seller every assistance in securing an interest in the property or taking any measure required to protect Seller's title or such other rights. The retention of title, security interest or charge shall not affect the passing of risk of loss and/or damage under Section 9.

11.2 Seller shall retain title to any software and documentation. To the extent that such software and documentation are included in the scope of delivery, then Buyer shall receive a royalty-free, non-exclusive and non-transferable license to use such software and documentation only in connection with the Equipment and for no other purpose whatsoever.

12. ACCEPTANCE TESTS

12.1 Should the Agreement require separate acceptance tests, the tests shall be carried out in accordance with the Agreement. If the Agreement does not specify the requirements, the tests shall be carried out in accordance with general practice in the lifting equipment industry in the country of manufacture.

12.2 The Seller shall notify the Buyer of the tests on sufficient time to permit the Buyer to be represented. If the Buyer is not represented, the test report shall be sent to the Buyer and shall be deemed accepted as accurate.

12.3 If the tests show the Equipment not to be in accordance with the Agreement, the Seller shall without delay remedy to any defect in order to ensure that the Equipment complies with the Agreement. New tests shall then be carried out at Buyer's request, unless the defect was insignificant.

12.4 Any costs relevant to tests carried out at the manufacturing site shall be borne by the Seller. The Buyer shall bear entirely its own costs, including, but not limited to, travelling and living expenses incurred by the Buyer's representatives in connection with such tests.

13. FINAL ACCEPTANCE

13.1 Should the Agreement require separate acceptance, the Equipment shall be deemed as finally accepted upon execution of any acceptance tests resulting in the Equipment complying with the Agreement. Minor defects shall not be considered as ground for denying the acceptance of the Equipment. Such defects shall be accurately listed and the Seller shall remedy thereto without unjustified delay. If acceptance tests are not to be carried out, the Equipment shall be deemed as accepted and taken over upon delivery in accordance with the terms specified in Section 9.

13.2 Should the Agreement provide for a specific acceptance, such acceptance test shall be made without delay after the Buyer is notified that the Equipment is available for acceptance. If such tests are not executed, whether in whole or in part, the Equipment shall be deemed as finally accepted on the seventh (7th) day following the day of the notice of the availability of the Equipment for acceptance.

13.3 The Buyer shall not be entitled to put the Equipment into operation before final acceptance. If the Equipment operation is started before the completion of the final acceptance without the Seller's consent, the Equipment shall be deemed as finally accepted.

13.4 In the cases set forth in Sections 13.2 and 13.3, the Seller shall be entitled to issue the invoice for the Equipment to the Buyer and the relevant warranty period shall start running.

14. WARRANTY

14.1 The Seller warrants that, to the best of its knowledge, the Equipment is free from defects caused by faulty design, materials or workmanship, which would prevent the electrical or mechanical functioning of the Equipment. However, should such defects occur during the period of this warranty, the Seller will, at its option, either repair the defects or supply the correct parts free of charge on FCA (INCOTERMS 2020) basis. The cost of disassembling and installing a repaired or replaced part supplied under this warranty is excluded.

14.2 The warranty period applicable to any part/component of the Equipment is twelve (12) months from the date of delivery of the Equipment.

If any repair is carried-out during the warranty period, the warranty term shall continue to run in any event.

14.3 The Buyer shall give the Seller written notice by email at the address demag@pec.demag.it of a defect without any delay after the defect has appeared, and in any event by and not later than eight (8) days of the discovery. The notice shall contain a description of how the defect appears. If the Buyer fails to give notice to the Seller within the warranty period above, the Buyer loses its right to make any claim in respect of the defect.

14.4 Defective parts, which are replaced under this warranty, shall be placed at the Seller's disposal and become property of the latter within one month from the relevant Seller's request. Should the Buyer fail to return such defective parts, the costs of any replacing components shall be invoiced to the Buyer.

14.5 This warranty is given on the condition that the Equipment is in all respects operated, handled, serviced and maintained properly, in accordance with Seller's instructions and under specified operating conditions.

14.6 The following parts shall be excluded from the warranty:

- (i) parts which are exhaustible items, including but not limited to such items as bulbs and fuses;
- (ii) parts on which repairs, alterations or adjustments have been performed or begun by the Buyer or any third party without Seller's previous consent;
- (iii) parts whose defects are not promptly reported to the Seller within the applicable warranty period;
- (iv) parts whose defects or damages are due to negligence not ascribable to the Seller, accident, abuse, improper installation (other

- than installations made by the Seller), improper operation, or abnormal conditions of temperature, moisture, dirt or corrosive matter;
- (v) parts which have otherwise been damaged without the fault of Seller (e.g., parts which were damaged during their transport and handling);
 - (vi) parts which are subject to normal wear and tear (e.g., ropes, chains, friction materials, loading equipment, pulleys and blocks, hooks) and/or to deterioration due to atmospheric and environmental agents.

The Buyer shall compensate any additional expenses incurred by the Seller due to delay.

17. REPORTING
